TO WHOM IT MAY CONCERN

Getting support from EDST Team is always delightful.

I would like to thank Dr. Varun Sharma, Sr. Application Specialist from EDS Technologies Pvt. Ltd. For conducting physical training of the Complete SIMULIA Package (ABAQUS/ISIGHT/TOSCA/FESAFE) from 6-10th February 2023 at CSIR-Central Building Research Institute, Roorkee.

More than 35+ research scholars including B. Tech, M. Tech, Ph. D, Scientists from the Structural and Geotechnical Department have participated in this training. Problem solving skill and learning new workflow definitely help research scientist to carry out analysis in their area of interest. The sessions were quite informative and the students got aptly benefitted from the hands-on training exercises.

It was a great learning experience for the participants of the course. The feedback from the participants was overwhelming about the SIMULIA sessions.

We greatly appreciate the efforts for giving a new perspective on computer modelling and simulation.

We are looking forward to organize something analogous in the future.

Thank you again for your time.

Yours Sincerely

Dr. Kishor S. Kulkarni
